

Pro-LED Panel Light

Horticultural Range

Pro-LED Panel Lights are uniquely constructed using Universal Science's large format circuit board technology whereby a structural light engine is used to enable a back-lit, high performance luminaire with uniform light output and IP66 sealing potential.

Features

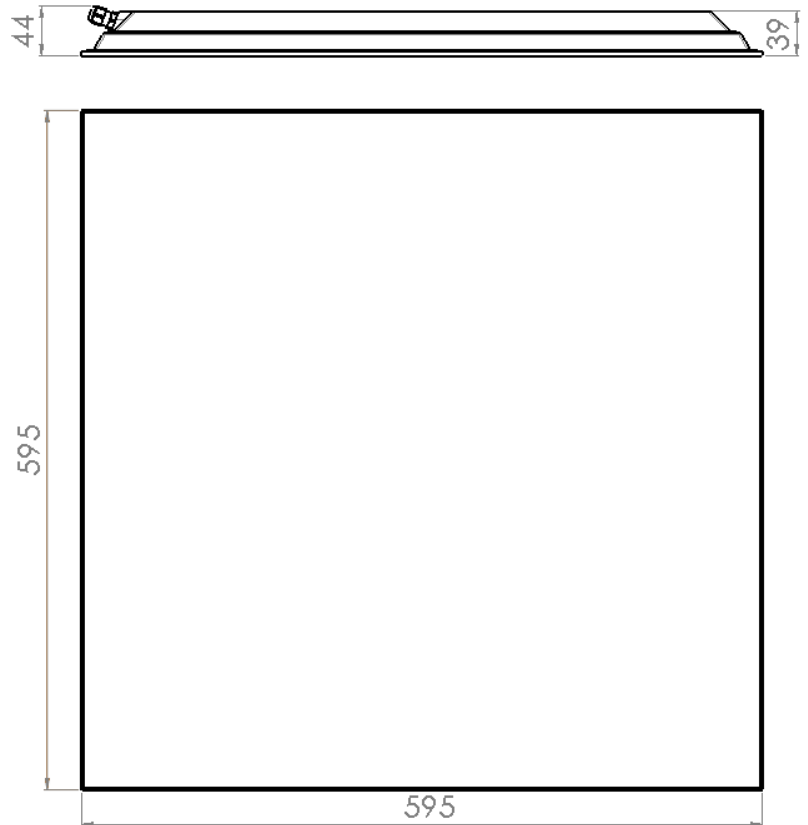

- All wavelengths available as required
- Luminaire sealed to IP66 rating
- Compatible with 1 or 2 channel smart drivers
- Extremely long LED life achieved through integrated thermal management
- Ultra lightweight, slim back-lit construction

Applications

- Horticultural
- Vertical farming
- Grass regeneration

Horticultural Range Specifications*

- UV resistant polycarbonate cover
- Fire Retardant ABS surround
- Aluminium backed PCB
- LEDs selected to provide desired wavelengths

MADE IN THE UK
